Only Team County To Win Tuesday Night

**Brewers
Benton Lose,
Is Idle**

Watch this space, for in the future, we will see a new type of television service. This is the first time in the history of television that a single station has been able to broadcast a complete program. The service is being developed by the National Television Company, and it is expected that it will be available to the general public within a few months. The service will allow viewers to watch a complete program, such as a play or a musical, without having to watch the commercial breaks. This is a significant improvement over the current state of television, where viewers are often interrupted by commercials during the middle of a program. The National Television Company is currently testing the service in several cities, and it is hoped that it will be available to all viewers soon.

Cope And Lampley Open With Thoroughbreds

MURRAY STATE THOROUGHBREDS—Coach Harlan Hodges will send a strong contender into the Ohio Valley conference this season, shooting for his first title since taking over the basketball squad in 1948. Left to right, first row—Madison Stanford, Bennie Purcell, Garrett Beshar, Don Stephenson, Melvin Dewese; second row—Karl Hussung, Charles Lampley, Gene Garrett, J. M. Gipe, Gene Dick, Coach Hodges; third row—Carlos Bailey, Bob Best, Glen Jeffrey, Mason Cope, assistant coach Zadia Herrold.

Two Marshall County basketball stars will appear with the Murray State College Thoroughbreds in their opening game tonight, December 1.

Mason Cope of Brewers Mt. Basketball himself will be again playing in a forward position. Charles Lampley, 6 ft. 6 in. tall, is also scheduled to play Western Kentucky before meeting Murray.

For the 1949-50 season, Mason Cope scored 34 field goals and 52 free throws for a total of 220 points for the season. Charles Lampley, tallied 51 field goals and 23 free throws for a total of 125 points.

With the farm-sized sheep flock making a "comeback" in many parts of the nation because of a rising demand for wool, authorities here today reminded farmers that sheep require more careful management than most farm animals, if the owners expect to make a profit.

An American Foundation for Animal Health bulletin points out that parasites are one of the most serious obstacles to profitable sheep raising. Correct nutrition also is highly important in maintaining an efficient flock.

The foundation offers farmers these four pointers:

1. Have all sheep treated against parasites in the fall and in the spring. Newly purchased animals should be treated before allowing them to mingle with the herd.

Cope, a freshman last year, entered Murray under the fanfare of being considered the best prospect at the college since Joe Fuks; he lived up to his advance billing as the 220 points he scored was racked up in playing only half time under the two platoon system.

For the 1949-50 season, Mason Cope scored 34 field goals and 52 free throws for a total of 220 points for the season. Charles Lampley, tallied 51 field goals and 23 free throws for a total of 125 points.

The fire department was called twice in the early hours of Sunday morning.

At about 1:30 a blaze gutted the kitchen and attic of the W. G. Ridings home on East 12th Street. And about 6 o'clock a blaze for a faulty fuse caused considerable smoke damage at the Hatler Morgan home.

The fire fighters worked efficiently despite sub-zero weather and soon brought both blazes under control.

Legion Meets Dec. 4

A telegram from Senate Secretary Leslie Biddle, saying that Gov. Earle C. Clements had been sworn in as United States senator, cleared the way for the inauguration of his lieutenant governor, Lawrence W. Wetherby.

In a brief and simple ceremony Monday, Justice Porter Sims of the Court of Appeals administered the oath to the 42-year-old Louisville lawyer.

Boy Scouts Given American Flag At Ceremonies Tues.

**Robert Davis Is
With Advance
Troops In Korea**

WITH THE 7TH INFANTRY DIVISION IN KOREA - Private First Class Robert L. Davis, son of Mr. and Mrs. Lee Davis of Route 2, Benton, Ky. reached the U.S. Forces in Korea, Davis' unit, the 7th Infantry Division, recently dug in on the icy banks of the river some 30 miles south of the Manchurian border.

After two successful amphibious invasions, at Inchon and Iwon, and a leading role in the battle for Seoul, Private Davis and his buddies reached the river. They advanced several miles through blinding dust along narrow roads winding through mountain ranges capped with snow.

Davis' unit uncovered scores of chests containing documents concerning Communist party membership in North Korea.

Although night temperatures registered two degrees below zero, Davis and the men in his unit, warm in their parkas and shoe pacs, were leading the race for the Manchurian border and had smashed large scale North Korean resistance. They were happy in the knowledge that in the villages behind them churches were, for the first time in five years, holding Christian services.

**Ky. Lake Neon Sign
Company Has Moved**

The Kentucky Lake Neon Sign Company has moved into its new location at 100 North Main Street, next door to the Lane Lumber Company.

This fast growing organization, manned by Benton men, is becoming well known and is installing many neon signs throughout the area. One of the latest in Benton is the large signs across the front of the new city hall building that lights up the entire block. The sign is just the wording—City Hall and below that Water & Lights, but the background that causes them to stand out exceptionally well, this was figured by the sign builders before installation.

Everyone is invited to attend.

**Presentation Is
Made For WOW
By Roy Henson**

A large American flag was presented to the Benton Boy Scout troop by Roy Henson on behalf of the Woodmen of the World, at a formal meeting at the Benton First Methodist Church Tuesday night.

Also a presentation was made to the scout master, Al Meyer, of a compass and Patriot's handbook for his work with the troop. This presentation was also made by Mr. Henson, who is district representative of the Woodmen of the World.

During the formal program the entire group joined in singing "America" led by Joe Coulter. The invocation was given by Rev. Harry Williams, pastor of the First Methodist Church, which sponsors the scout troop.

Following the singing, the flag was received for the scouts by Dr. E. M. Wolfe, of the board of directors, who also extended thanks to the WOW for the valuable gift.

During his presentation speech, Mr. Henson told something of the WOW, he said, "In San Antonio, the WOW has for more than a quarter century, operated a 150 bed hospital for the free treatment of its members who are afflicted with the great white plague—tuberculosis. More than four thousand members, he said, have passed through this institution since its inception.

An endowment has been set up by the society to promote good citizenship, to assist in fraternal undertakings in communities all over the nation, to aid local camps in presenting flags to schools, churches, 4-H clubs, Future Farmers of America, Old Soldiers' Homes, American Legion Posts, Boy Scout Troops, parks and playgrounds and R. O. T. C. units. The flag was presented to the Benton troop on behalf of the WOW Camp 117 of Benton.

Also on behalf of the camp, the presentation of the compass and handbook to the scoutmaster was made by Mr. Henson. He went into some of the history of scouting in a short presentation speech. He emphasized the importance of the scout law which says a Scout is Trustworthy, Loyal, Helpful, Friendly, Courteous, Kind, Obedient, Cheerful, Thrifty, Brave, Clean and Reverent.

Farmers Reelect Committeemen

**Shemwell, Treas
And Foust Again
Head Program**

John D. Shemwell, Everett Treas and T. R. Foust were re-elected as county committeemen to administer the Agriculture Conservation program in Marshall County this week.

The election was county-wide and polling places were at Aurora, Palma, Briensburg, Oak Level and Brewers, one for each district. At this voting each elected three members of a county committee and a delegate to the county convention which was then held in Benton at which time the county committee was named.

Decisions forthcoming during the new year, brought on by world conditions, make this committee one of importance to all farmers and able leadership in farmers making their selections for this important committee.

Problems concerning fertilizer, seed, construction and transportation will be found of prime importance, officials say, due to the increasing defense activities.

Mrs. Kate Landram and children, Catherine, Jane and Joe, and Anna Muriel Meyer visited last week end with Mrs. Landram's daughter and family, Mr. and Mrs. Howard Harn at Gibson City, Illinois; they intended to return Sunday but the sub-zero weather caused the highways in Illinois to be closed to traffic and they returned Tuesday afternoon. They also visited Mr. and Mrs. Alvin Tuntland and in Champaign and Bloomington.

**New Senator And
Governor For Ky.
Are Sworn In**

A telegram from Senate Secretary Leslie Biddle, saying that Gov. Earle C. Clements had been sworn in as United States senator, cleared the way for the inauguration of his lieutenant governor, Lawrence W. Wetherby.

In a brief and simple ceremony Monday, Justice Porter Sims of the Court of Appeals administered the oath to the 42-year-old Louisville lawyer.

His inaugural address reviewed the three years of the Clements administration. During this period, Wetherby said, Kentucky has made great strides in conservation, agriculture and industry as well as other fields. Of these he emphasized health, especially mental health, and pledged expanded facilities for the state's mental institutions.

The new governor told newsmen after the ceremonies that he plans no changes in appointive positions in his official family.

Wetherby's family—his wife, Helen, and their three children—moved into the executive mansion Monday.

At Washington, Wetherby's predecessor became "senator" Clements when he was sworn in by a fellow Kentuckian, Vice President Alben K. Barkley. Clements' college, Sen. Virgil Chapman, was delayed by the snowstorm from reaching Washington in time to escort the new senator to the front of the Senate chamber according to custom.

**Mrs. Ray Jordan Is
Hostess To Altona
Homemakers Club**

Mrs. Ray Jordan was hostess to the Altona Homemakers Club for their November meeting.

The fitting of patterns was the major subject with Mrs. Jimmy Samples in charge of the lesson. The President, Mrs. Chester Vied, presided over the business session.

The December meeting was scheduled to be held at the home of Mrs. Rudy Greer on December 27 with "Oven Meals" as the major topic.

Refreshments were served to Mrs. Chester Vied, Mrs. Lela Powell, Mrs. Jimmy Samples, Mrs. Gladys Hill, Mrs. Elzy Egner and the hostess, Miss Sunshine Colley, home demonstration agent, was unable to attend the meeting.

**Mrs. Telle Joins
Staff Of Bank Of
Marshall County**

Mrs. Emmeline Telle, who for the past five years has been Home Economics instructor at the Benton High School, began her duties as an employee of the Bank of Marshall County, Monday morning.

Mrs. Telle resigned her position at the Benton High School to accept the position with this large banking institution. She is the wife of Elton Telle, co-proprietor of the Benton Style-Mart Store.

Mrs. Clarence Riley of Route 3 returned from Detroit after accompanying her daughter Mrs. Marvin Miller and children home for the holidays.

Concert Successful Friday Night

Despite below zero weather accompanied by icy pavements, a large crowd enjoyed Benton's first instrumental music concert presented at the school gym Friday night.

This big event was promoted by the Benton Band Association on behalf of the Benton school and to better acquaint the people of this community with the importance of the band recently formed at the Benton school.

Elmo Reed, now a music instructor at Wabash, Indiana, a talents to the musical evening.

**So . . .
Why do
This?**

YOU don't drop a burning cigarette on
your living room rug, because you value
that rug.

Growing trees are valuable to you,
too. From them come thousands of
products you need. They create millions
of jobs. They build your home, give
you paper and other things, may even

be the reason why you have an income.
A spark in the woods can cause many
thousands of times more damage than
a cigarette on your rug. Forest fires
destroy not only today's forests . . . but
tomorrow's forests, too.

Protect this vital national resource by
never being the cause of a forest fire.

Treas Lumber Co.

Benton

Kentucky

DON'T BE THE CAUSE OF A FOREST FIRE

Around The Square

This corner apparently hit the jack pot in suggesting the building of a gymnasium in keeping with the basketball spirit of this community.

Benton is the county seat of Marshall County — and Marshall County is the most basketball conscious county south of the Ohio River. With five high schools, all of whom have been represented in the State Championship play-offs and with more than one State Championship brought back to Marshall County.

There are probably more basketball fans in this county per square inch than any other county in the entire south, and yet not a gymnasium they can get into to see a game without standing up for two hours before game time — and then probably have to stand throughout the game and sometimes all the way in the hall and look through a door to see a fractional part of the action.

The keen interest was manifest by response from all types of people; Mr. and Mrs. Average Fan have told us that this project has been their lifelong hope, civic and school leaders say they want to see it carried through, and all have stated they will do all they can to bring it about.

That is all it will take; everyone doing all they can to make the dream come true. So, if all those who have told us they want to help make it a reality mean what they say, a Gymnasium Will Be Built Here Within The Not Too Distant Future.

That will mean all the fans who wish to may see the games and also means that tournaments can be brought to the The Basketball County.

We have been told that the project is to be brought before those who can carry the job through, and brought before them in an official manner, within a very short time. If so, we should soon have a report that will make us all happy, and especially make us glad that we mentioned it.

Again the Louisville Courier-Journal honors this corner by reprinting an item carried here; we are glad they find our little meanderings worth using. This one was about the tale Dr. Henson told about the fisherman filling his minnow bucket with 'moon-shine' and then having a tough time getting a minnow loose from a catfish tail.

The Tribune newsreel at the Calvert Theatre next week will show the U. S. Demanding that the Chinese Reds quit Korea; some G. I.'s home from Korea; Sweden hailing their new King; Marshall picking a woman aid; a bridge taking a nose dive; a frog plague; noted men back giving the brotherhood movement and the football game of the week.

Elwood Houser Is Corn Derby Winner

The winner of the Marshall County Corn Derby was announced today by J. Homer Miller, county agent.

Elwood Houser of Benton route 3, was declared the winner after having produced 682 bushels on one acre.

Mr. Houser placed second in 1949 with 501 bushels. The acre planted on May 20, on land that was in corn in 1947 and 1948. In 1949 a crop of lespedeza was turned under and the field was seeded to vetch and wheat.

At the time the vetch was seeded, 400 pounds of 49% phosphate was broadcast when the vetch and wheat were turned

under. 200 pounds of 4-12-8 was drilled in the row. The rows were drilled 40 inches apart and the stalks were 12 inches apart in the row. Corn was sowed three times. Mr. Houser planted the acre to Stull 400 W.

Second place went to E. T. Inman of Benton route 5, on his yield of 1044 bushels. Scott Shemwell placed third with 837 bushels.

The Corn Derby was sponsored by the Marshall County Farm Bureau who will award the following prizes: 1st prize of \$15.00; 2nd prize of \$10.00; and 3rd prize of \$5.00.

Give your old toys to the Boy Scouts to work for needy children for Xmas.

Artificial Breeding Offers Dairymen Many Advantages

Artificial breeding offers an opportunity to improve the quality of dairy cattle that most dairymen, according to a new circular of the college of agriculture and home economics, University of Kentucky.

Dairymen accounts for about 17 per cent of Kentucky farm income and is second only to tobacco. Dairymen is expected to become more important as more grass is grown and better herds are established.

Some of the advantages of artificial breeding are:

1. Service of outstanding dairy sires at relatively low cost.
2. More widespread use of the outstanding sires available.
3. Diseases frequently brought in with purchased replacements may be avoided. Also, certain diseases transmitted by infected bulls can be effectively controlled.

4. The expense and risk of keeping a bull on the farm are avoided.

5. Frequently, artificial breeding tends to cause owners to give better feeding and care to their herds—especially to those animals resulting from artificial service.

Several disadvantages of artificial breeding are listed. Discussed also are the organization and operation of local breeding cooperatives.

Birthday Party For David Green

Mrs. Dennis Green entertained with a party Friday afternoon, November 24, in honor of the fourth birthday of her son David. Games and contests were enjoyed with Miss Sandra Lou Crockett winning the contests. Ice cream, cookies and refreshments were served for the party. Favors were tiny cups of mixed candies and nuts.

Guests were Misses Chagotte and Louise Logue, Debby and Linda Woolfolk, Betty and Judy Cannon, Linda and Sandra Green, Sandra Lou Crockett and Nancy Green and Masters Richard Logue, Jackie Woolfolk, Junior Owens, Tony Williams and James Green.

"Saved my Life"

A God-send for GAS HEARTBURN

What a relief! After years of suffering from heartburn, I found relief in the form of a small bottle of BELL-ANS for Acid Indigestion 25c.

Soil Conservation Notes

By Herbert Anderson

W. A. Fuqua and Russell Brown, south of Sharpe, built a new property line fence the first of the month. They are cooperators of the Marshall County Soil Conservation District.

Fuqua said, "I am going to stop raising so much corn and increase my livestock."

K. L. Pace, Hardin, is building new fences around a twenty five acre field which will be used as a permanent pasture. This land was too wet for corn. Fences properly located make it possible to use the land according to its capability. This insures full use and the most returns from each acre.

G. W. Lofton, Possum Trot, harvested about 1500 pounds of clean lespedeza asierica seed from three acres last month.

Hatler Morgan, Benton, has wheat growing on land which was idle last summer. A bulldozer with a root rake first cleared the big trees and bushes. Then it was double disced with a big bush and bog pulled by the bulldozer. Two times over it with his farm disc put it in fine shape to sow the wheat.

Joe E. Hill, south of Briensburg, says, "I am seeding my steep land in good pasture grasses and legumes first. While I am doing this, if I need to grow cash crops, my best land will be capable for that use."

He was telling me the procedure he wanted to follow in establishing his complete soil and water conservation farm plan with the help of the Soil Conservation Service. New fences are being built as near to the contour as possible to separate his row crop land from permanent pastures.

Around the County Farm Front

By J. Homer Miller

TOM COLLIE purchased twelve ewes to add to his flock of sheep the other day. "I had to pay \$33.50 per head for them. That seems high but I bought some last year about as high and the first crop of lambs more than payed for the ewes and I had the wool to pay for the feed and labor."

NEWT TYNES used pine needles on two acres of berries for mulch last year. "It was the best mulch I ever used and I think I will have enough pine needles to mulch this year's crop. No weed seed of any kind. I only need more pine trees."

NOBLE REED, ROY BLOOMINGBURG, WILL CORNWELL, DILLARD BAILEY and LINNIE RUDOLPH beat the weather man to the punch last week. They all went together and cut their winter's wood with a tractor cut-off saw. By working the cut trees on their farms.

WINTER PASTURES haven't paid off much the last few days, but they will be ready for grazing when the weather gets right.

HOG KILLING and CUTTING and CURING the meat is a very timely bulletin at this time of year. Come by the office and pick up a copy, it may be of help.

CURT NOLES has a good pasture that was seeded last fall for it to fescue and clover. He should be able to get a lot of grazing this winter and next spring.

J. M. SOLOMON'S dairy cows are going around with their heads up in the air here of late. Jim installed an automatic water fountain in the barn for them the other day. "They sure like it and they are giving more milk too, guess good pure well water is better than the old pond."

Kentucky has had a 10-year
POPULATION GROWTH 4%
TELEPHONE GROWTH 129%

A good gauge of Kentucky progress and prosperity, and of the size of the telephone job that's been done, is a comparison of population growth with telephone growth. While the number of people in Kentucky was increasing 4% in ten years, according to the census, the number of telephones jumped 129%.

A large part of this telephone growth has taken place in just the last five years. During that short time Southern Bell has built \$45,470,000 of new telephone facilities in Kentucky... increased the number of telephones by 71%... nearly doubled long distance circuits and more than doubled rural telephones.

We've spent more to expand Kentucky telephone facilities in the last five years than we had invested in the state five years ago. And we're going right on doing our best to meet the continuing heavy demand for service in town and on the farm.

C. Hunter Green
Kentucky Manager

SOUTHERN BELL TELEPHONE AND

Where Money to Expand and Improve Service Comes From

It doesn't come from the money you pay us for telephone service... that money goes to pay wages, taxes and other operating costs. The money to build new facilities must come from people with money to invest. That's why the future of telephone service depends on the Company's continued ability to pay for the use of the money invested in telephone facilities.

Three Students From Benton In Group At Chicago

Three Benton, students are amongst the Murray State College delegation attending the International Livestock Exposition in Chicago this week. There is a total of 24 members of the college agriculture club and Prof. Arlie Scott, instructor in the Ag department attending from Murray.

Those from Benton are Wilburn Siris, Ross Chumler, and James Jones. This group constitutes the largest delegation from Murray State ever to attend the Exposition. While in Chicago they will see the display and judging of what is considered the best livestock in America.

Cherry Grove:

By Effie Bowden

Thanksgiving holidays in this Grove were spent in zero weather and turkey dinners with loved ones. Children motored from near and far to eat dinner with parents, the reporters at Possum Trot, Robbie and Tommie, were holiday guests of the Ed Hamiltons, along with one of Ed's barber friends from Detroit, Charles Dexter. The G. L. Hamiltons had for their holiday guests the Lex Filbeck of Atlanta, the John Filbeck of Little Cypress, also a neice and her family of Paducah. This family had a fish and oyster supper with the Robt. McKendrees a few nights ago.

Fair Dealing:

By Mrs. Bert Nelson

What cold weather for November, no school today as the water line is frozen.

Mr. and Mrs. Hallie Nelson, Mr. and Mrs. David Nelson and daughter, Judy, and Mr. and Mrs. Brown were Sunday afternoon visitors of their parents, Mr. and Mrs. Sam Nelson, Mrs. Jeannette Darnell, Mrs. Peggy Darnell and daughter, Pat. Mrs. Omerell Belman and children, Carolyn and Jr. Mr. and Mrs. Herbert Hunter and son, Phillip, and Mr. and Mrs. Ray Nelson were callers here Thanksgiving Day. Amon Gregory of Hickory was a Saturday visitor. Mrs. Reed Lofton went to a Nashville hospital Wednesday for two weeks treatment. Best of wishes to you, Mrs. Lofton, also to Mrs. Lake Holt who has been sick for some time.

Thanks a lot for the nice compliment, Mrs. Jones. The celebration through Mrs. Jones was someone special too. We're always glad to find you in the Tribune. It seems to be time to wish the following happy birthdays: daughter Joy observed her's Thanksgiving, who is ill at her home on Route 2. Mr. and Mrs. Travis Etheridge are home from Detroit. Mr. Etheridge is working in Murray. Our get well wishes are for Mrs. Raymond Houser at Houser's Corner, Oak Level; for Mrs. Walter Travis, Benton, who is not up to par these days; for John Smith of Route 2 who is convalescing at his home; also Russell McGregor who has just undergone an appendectomy at the Riverside Hospital; also for a friend, Mrs. Mayde McGregor in Dawson Springs; read the Tribune folks, that is better than Hadaol.

We still have time, plenty of time, to give a Tribune subscription to a friend for a Christmas present.

Soil Conservation Service

By Herbert Anderson

Herbert Williams, north of Oak Level, said, "I have about an acre on a steep, eroded hillside which I am thinking of setting in pine trees or sowing in lespedeza sericea next spring."

By placing an order now with Robert Rider, County Forester, farmers can get trees for planting early next spring.

Roswell Smith, Oak Level, made his conservation farm plan last week. Smith had already started farming the conservation way by clearing and seeding eight acres of idle land. Help from the Soil Conservation Service in staking a pond, terraces, and waterways was planned for next year.

Buel Edwards, Fairdealing, has proved for his own satisfaction that he can grow good grass on class seven land. This is land which is too steep and rocky for row crop production. Edwards says, "My cattle have no trouble at all grazing on it."

Robert Bailey, Possum Trot, harvested about 400 pounds of cleaned lespedeza sericea seed from one acre. These will come in handy at seeding time the last of next March or April.

George Long, Benton, came into the Marshall County Conservation District Office last Monday to get his complete soil and water conservation farm plan. A proposed plan for building new contour fences between the terraces was outlined on his land use map.

Scott DeMeyer, SCS technician, delivered conservation farm plans week before last to Maurice Hamilton and Reece Barrett at Possum Trot.

Funeral Services For Clint Fiser Held Wednesday

Funeral services for Clint Fiser, 85, were held Wednesday afternoon at a Paducah funeral home with the Rev. A. B. Rogers officiating, assisted by Rev. Earl Neal.

Mr. Fiser was a brother of Quitman, Gaston, and Rip Fiser of Marshall County. He passed away Tuesday morning at the Illinois Central hospital in Paducah, following a brief illness. He was a member of Aldersgate Methodist Church. He retired in July of 1949 after completing 25 years as maintenance man at Southern Textile Machine Company.

Besides the three brothers of Marshall County he leaves his widow, Mrs. Annie Towland Fiser, three sons, Ollie, James Fiser, Woodrow Fiser, and Jimmie Fiser, all of Paducah; three daughters, Mrs. Frank Riglesberger, Mrs. Robert Jennings, and Mrs. H. H. Dudley, all of Paducah; one other brother, Hallett Fiser of Olympia, Washington, thirteen grandchildren and four great-grandchildren.

Palbearers were Ed Shelton, Fred Robertson, Homer Heflin, Lex Watkins, Robert Parkins, and Clyde Thweatt.

Mrs. Talmadge C. Riley of Route 3 had as their holiday guests, Mr. and Mrs. Charles D. Jobe and children of Greensboro, N. C. Mr. and Mrs. Jobe were both German P. O. W's.

Many a man begrudges giving his wife an allowance, because she spends most of it, before he can borrow it back.

Congratulations to Mr. and Mrs. Edward Anderson who are parents of a baby son, Mrs. Ellis Wallace, daughter of Mr. and Mrs. Oral Wallace and James Holt of Paducah. The baby was born November 4 and was united in marriage to the Rev. Lloyd Wilcox at the ceremony. Mr. Anderson is Home Economics teacher at Rosiclar, Illinois and is a veteran agriculturist at Murray. Mr. John Anderson is very ill at his home.

Calvert City High School News

By Bobbie Jean Freeman

After a very nice Thanksgiving, we are ready to begin the last lap of this semester. This being the last lap of this semester means a busy time ahead for all of us. The Glee Club under the direction of Mrs. Wright, is coming along very nicely. The Christmas program, thanks to Mrs. Wright, will be a very nice one. The P. T. A. is sponsoring a contest to crown a king and queen of the school. Each class will have a representative in this contest. Then the contestants who have the most votes will be crowned King and Queen. The date for the crowning has been set as December 19.

The Home Economics girls are planning a tea for Thursday afternoon. We feel that such a social activity as this will be a very 'learning' process for us. We have just finished a unit on sewing and the garments which were made were all very pretty. We feel it was well worth the time, effort and patience spent on them. We wish to thank Mrs. Harrell, our teacher, for her patience and consideration during this project. We are now ready to begin a Christmas unit.

The lunch room menu for this week is: Monday—Hashed brown potatoes, Lima Beans, peanut butter sandwiches, sliced tomatoes, milk and ice cream. Tuesday—Vegetable soup, chockers, pimento cheese sandwiches, milk and cherry pie. Wednesday—Baked ham, white beans, candid yams, lettuce and tomatoes, milk, bread

JEST LAFFS by ROBERT

and plums. Thursday — Green beans, creamed potatoes, corn, sliced tomatoes, corn bread, milk and pears. Friday — Hot dogs and buns, peanut butter sandwiches, slaw with green peppers and tomatoes, milk and ice cream.

Overseas Veterans agree the V. F. W. is a Good Outfit.

The Benton Homemakers club is sponsoring a moving picture program on Forest Conservation. The meeting will be open to the public at no charge and will be held at Benton High School at 7:00 p. m., Thursday, December 7.

Homemakers clubs over the county are studying conservation in a series of six lessons covering soil and water, forestry and wildlife. Bob Rider, County Forester, will show the pictures. He has a very interesting picture, "Southern Hardwoods — Yours Forever". This 30 minute picture gives some of the history, adventure and operations in our great lumber industry which provides us with homes, furniture, plastics and thousands of useful items.

Funeral Services For Mrs. Crowell Held Wednesday

Funeral services for Mrs. Rosetta Crowell, formerly of Symsonia, were held Wednesday afternoon at the Symsonia Methodist Church with the Rev. Wade Perkins officiating.

Interment was in the Crowell Cemetery. Mrs. Crowell, who would have been 91 years old December 3, passed away at the home of a daughter, Mrs. Mattie Tolbert, on Paducah Route 3, early Monday night. She was a daughter of the late Rev. Thomas Harrison, a well known Baptist minister.

Besides the daughter, Mrs. Mattie Tolbert, she leaves one other daughter, Mrs. Roberta Coleman of St. Louis, and three sons, J. H. Crowell of Graves County, Crate I. Crowell of Washington D. C., and Curt Crowell of Paducah, 16 grandchildren and 13 great-grandchildren.

Mrs. A. T. Green's condition is reported as unchanged. She lives on Benton Route 1.

Alan Ladd and Wanda Hendrix portray the lovers in the intriguing drama "Captain Carey, U. S. A."

YOUR TIME IS GOD'S TIME

When asked to prepare a statement concerning the proper use of time, a group of young people came up with these words:
"Your time is God's time."

Grown-ups may well heed this truth.
One's time is really not one's own. Even though budgeted to include only such things as business, golf, gardening, travel or what not, it is still God's time.

And when we fail to include in our time budget a few hours for the Church and its constructive program, then the One from whom we get all the time we have is being ignored and we are losing priceless returns.

Time given to the Church and the enterprises for which it stands is an investment that pays dividends for all the other worthwhile things we have to do.

Try it. Take an interest in some Church—in the Bible—in an activity on the high level of service to others—and see how much more productive all of your time will be.

THE CHURCH FOR ALL ... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

TRUCKERS SAY IT

Outworks Them All

NEW faster service anywhere in U. S.
Exclusive rapid road service for GMC owners—call Western Union Operator 25 for name of nearest GMC approved service

In these uncertain days it's wise to buy a rugged truck that can roll over the punches for years to come. Big fleet operators who keep careful check on all makes of trucks tell us that GMC's are consistent standouts for long life with minimum maintenance.

That goes for all GMC's from 1/2-ton models up. Many GMC Diesel truck-tractors are still highballing loads with more than a billion miles of over-the-road service behind them.

The reason is—every GMC is all truck! Every GMC is designed by truck engineers for truck service with 100% truck-built parts. You get a real truck engine with high horsepower and higher sustained torque—more pull—an engine that delivers full power without eating its heart out!

There are many other extra-value reasons why a GMC is your best buy for the long haul. We'll be glad to give you proof!
